

OpenMBEE at MODELS 2021

October 10, 2021 (TBC) Virtual Event

Call for Papers

OpenMBEE, the first international workshop on **Open Model Based Engineering Environment**, will take place at the ACM/IEEE 24th International Conference on Model Driven Engineering Languages and Systems (MODELS). This intensive, half-day event will bring together practitioners, researchers, and vendors to share expertise on system environments for systems engineering.

We are currently accepting full and short papers from the following categories: research transfer into practice, comparison and evaluation of Model Based Engineering Environments (MBEEs), position papers, descriptions of MBEEs.
